

# Why Become a **CLI MIND-KINETICS®** Coach

## 1. WHOLE BRAIN THINKING IS THE MAGIC

That generates outrageously impactful results! CLI's proprietary Science of Mind-Kinetics® is the foundation for your impactful coaching system, called PCMK™, and it is the secret to creating permanent positive change by engaging the Whole Brain Mind. Standard logical left-brain coaching methodologies cut us off from connecting to the brilliance we all have inside. Mind-Kinetics® is Whole Brain coaching that ignites genius thinking by activating both the logical, process oriented Left Brain and the intuitive, creative Right Brain for results that truly access the deepest and highest wisdom for innovative, genius solutions in every session.

*You will be astonished at the results!*

## 2. WHOLE PERSON IS INCLUDED

In every coaching session, a whole person shows up at the “door”. CLI trains Coaches to powerfully honour and engage every client, exactly where they are in the moment. All the facets of a whole human being must be included and supported, including the emotional, physical, spiritual and intellectual aspects.

*Your clients will sigh with relief at the thoroughness of your coaching skills.*

## 3. UNIVERSAL, WHOLE LIFE TOOLS

All of life is an interrelated weaving of our personal and professional life together. CLI's Universal Signature Coaching System provides you with all the Mind-Kinetics® tools required to confidently coach executives and corporate clients, as well as life coaching clients, including children, by addressing both their professional and personal issues and goals.

*This will make you a hugely valuable Coach and confidante to them.*

## 4. OUR SUBCONSCIOUS MIND DRIVES OUR LIVES

Where is it leading us? Science continues to illuminate the expansive control our Subconscious Mind has over our thoughts and behaviours. Willpower and intention alone cannot ensure achieving the success we aim for. To be effective, a Coach must have the advanced skills and tools to offer a client access to their subconscious mind, where all the roadblocks and both positive and unconstructive habits are stored. Then our conscious mind can work in harmony with our subconscious mind to drive success in every endeavour. *With Mind-Kinetics® you will shine like a Star in the coaching world.*

## 5. MOST PROFOUND PERSONAL AND PROFESSIONAL SELF-DEVELOPMENT PROGRAM IN THE WORLD

When Values are brought into a coaching session, they offer an opportunity for deep personal reflection and provide a potent reminder to bring them back into our lives to overcome a challenge or achieve a goal. Anchored deeply into these 76 Values we become strong and resilient, and they provide a portal to step into our greatness - living into our highest potential.

*Firmly anchored into the Values of Humanity, you can weather ALL manner of life's storms – and help others do the same.*
