| ◆ How to become more solution oriented. | ◆ How to handle being work force adjusted. |

Location: Crofton, BC Canada

"I have experienced Suzanne's coaching first hand. I believe she is an outstanding example of what can happen when an effective model such as Power Coaching® and a gifted coach are paired together. In a very short period of time, Suzanne was able to assist me in identifying, acknowledging and releasing long-standing emotional blocks. She thinks well on her feet, is simultaneously grounded and intuitive and walks that fine line between challenging a client to work through trying issues but not pushing so hard that the client shuts down."

– Kathy D. Milliken, M.A. President
